Furthermore, the waterline extension will be utilized for the new brine production area, providing an increase in flow and pressure. Reimbursement will come from the sewer reserve fund.

The purpose of the stipend is to increase cooperation and collaboration among local community gardens to provide food for those in the community who do not have access to fresh produce. The money will be spent on items that will help gardeners grow more food to donate more to the Clemmons Food Pantry. Currently the community garden budget can only be used for upkeeping things around the garden and cannot be used for items for gardeners' individual plots.
